

# Sure, Rep. Debra Maggart Says She Supports Your Gun Rights

## Of Course, He Says the Same Thing

Voters in Tennessee's 45th District deserve to know the truth about Rep. Debra Maggart.

She says she supports your Second Amendment rights, but when Tennessee gun owners needed her to show leadership, she failed.

Here's the story. The Safe Commute Act would have protected your rights against big-brother corporate policies that prohibit you from having your gun in your own car. Pretty simple.

It sounds crazy, but some Big Business corporations want to deny you the right to lock your property in your own car during work. Even if you have a carry permit or want to go hunting after work.

The Safe Commute Act would have put you back in charge of your rights – not some faceless corporation hiding behind its lawyers.

The common-sense reform bill passed through all committees with bipartisan support.

But then, Rep. Debra Maggart had to choose between supporting gun owners – or shilling for big business. And she chose to pervert the legislative process by blocking the bill from coming to the floor for a full and fair vote.

So now you know.

**Sure, Rep. Debra Maggart says she supports your rights.**

**Of course, Barack Obama says the same thing.**

**On August 2nd, it's up to you to decide who's telling the truth.**
