**INSTITUTE FOR LEGISLATIVE ACTION**  
11250 WAPLES MILL ROAD  
FAIRFAX, VIRGINIA 22030

*Office of the Executive Director*  
**CHRIS W. COX**

Dear Guest,

Welcome to the 12<sup>th</sup> Annual NRA-ILA Dinner and Auction presented by Kimber. We are excited that you are joining us for this very special evening at the Kay Bailey Hutchison Convention Center, and we thank you for your continued support.

On behalf of the National Rifle Association's Institute for Legislative Action (NRA-ILA), I would like to express our deepest thanks to our industry partners and supporters for providing tonight's auction items. Your generous gifts directly impact NRA-ILA's ability to fight successfully for the rights of America's law-abiding gun owners and sportsmen during this critical time in defending the Second Amendment.

As you know, we currently face serious threats to our constitutional Right to Keep and Bear Arms. Our opponents are allied against us like never before. NRA-ILA is prepared to meet those challenges head on and continue to uphold our Second Amendment freedoms and hunting heritage for present and future generations. Your support during this evening's auction is essential to the success of our legislative, legal and political efforts.

We would also like to thank our supporting sponsors, Ruger, Townhall Media/Bearing Arms and Def Con Safes, a Pell Industrial Company. A special thanks to Cabela's for providing FFL services for tonight's event.

Please enjoy tonight's festivities, and again, we truly appreciate your support of NRA-ILA!

Sincerely,

Chris W. Cox

**VALID MAY 28 - JUNE 1 FOR 2018 AND 2019.**

**DONATED BY: VANCOUVER ISLAND GUIDE**

## NIGHTHAWK TURNBULL VIP 1 CUSTOM 1911 PISTOL

The Nighthawk Turnbull VIP 1, or Very Impressive Pistol, is just that, impressive. The Turnbull VIP models are the first additions to our VIP Collectors Line. As one of our most exclusive models, the VIP is built as a true heirloom piece that is the result of a collaboration between Nighthawk Custom and Doug Turnbull. Because of the time and skill that that is required to give this unique appearance, these guns are very limited in availability. This pistol is crafted with all of the finest customizations, including a classic case hardened and polished frame. The high polished, charcoal blued slide, matches the slide stop, magazine release, and thumb safety. To top it all off, we added a 14k solid gold bead front sight, mammoth ivory grips, and a custom case. Every pistol will vary slightly in appearance because each case hardened frame and set of mammoth ivory grips is unique. For years, firearms customers have loved Turnbull Finishes. Because of the relationship between Mark Stone of Nighthawk and Doug Turnbull, and the respect both men have for the product each company produces, they have created a partnership that has resulted in the finest 1911 pistols on the market.

### FEATURES

- Custom display box
- Finish-frame: high polished and Turnbull case hardened
- Finish-slide and controls: high polished and Turnbull charcoal blued
- Forged government size frame and 5" barrel
- Match grade .45 ACP barrel
- Cross-cut mammoth ivory grips
- One-piece magwell/mainspring housing
- Heavy bevel on the bottom of the slide
- Ball cut radius on the slide
- Five vertical lines on the front strap and mainspring housing
- Rear cocking serrations
- Solid 14K gold bead front sight
- Solid black Heinie Slant Pro rear sight
- 40 lines per inch serrated rear of slide to match rear sight
- Crowned barrel flush with bushing
- Lightweight medium solid aluminum Nighthawk Custom trigger
- Smooth recoil spring plug with thick barrel bushing
- Completely dehorned for comfortable carry
- New ultra hi-cut front strap

**DONATED BY: NIGHTHAWK CUSTOM/TURNBULL**

# ESPACAZA STAG HUNT FOR 1 IN SPAIN

Jose Mallo from ESPACAZA is donating a Red Stag hunt for 1 in Spain. Valid for 2018 and 2019, with the best periods being September to December. This is a 3 to 5 day trip and the hunt includes: Guide interpreter, transportation from Madrid, all meals and beverages and first class accommodations during the hunt.

Not Included: License and 18% VAT tax on donation. Jose recommends bringing a non-hunter.

This is more than just a hunting trip, as it will include touring, great accommodations, cultural visits, great food and fantastic Spanish wines. It can be combined with Spanish Ibex, Fallow deer, Chamois at normal published price. This is a rifle hunt. Hunters fly to Aena Airport. [www.espacaza.com](http://www.espacaza.com)

**NOTE: MUST BE TAKEN IN 2018/2019**

**DONATED BY ESCAPAZA**

# 2018 NRA-ILA ENGRAVED 1873 ORIGINAL HENRY RIFLE

Designed in 1860 by Benjamin Tyler Henry, the Henry rifle was first carried in the Civil War by Union troops, and later found its way west to be an iconic symbol of the American Wild West. Its popularity was in no small part influenced by its capacity as a repeating rifle.

But, capacity alone wasn't enough. With Union Army records indicating a lack of marksmanship by its troops, Union veterans Col. William Conant Church and Capt. George Wood Wingate formed the National Rifle Association in November 1871. The association's primary goal would be to "promote and encourage rifle shooting on a scientific basis." These NRA early beginnings and the events that led up to its founding are celebrated and captured in this special Henry Original Rifle, donated by the manufacturer, Henry Repeating Arms and the engraver, Baron Engraving.

A closer look at the receiver's left-front panel depicts a mortar battery in Yorktown, Virginia, in 1862, with men loading 200lb. cannon balls. A waving flag, with its forward-lunging spearhead staff-top, along with the screaming eagle that is coming in for strike directly above

the flag, bring the left-rear panel to life. Perfectly placed at the eagle's talons are the NRA-ILA letters.

The right-front panel has a cannon battery, complete with the blast and smoke from a round just fired, the crew working the cannon, ramrods and a stack of cannonballs. When looking closely at the right-rear panel, so much pre-NRA detail is brought forth. Soldiers charging into battle on horseback, sword drawn; infantrymen in the background; a layered collection of cannon, ramrods, swords, sabers, muskets, flags and an emblem are centered on the panel. Resting around this collection are two revolvers, a Henry Rifle, a field drum with sticks, two bugles, a satchel and a stack of cannon balls.

All four panels, as well as the receiver's top, are framed by American leafy-vine scroll patterns and point-dot stippling, to enhance the graceful lines of the Henry rifle and focus attention on the magnificently engraved scenes on this one-of-a-kind rifle, which is signed by the Baron engraver, Heidi Roos.

**DONATED BY: HENRY AND BARON ENGRAVING**

## THE FIRMINATOR

**The FIRMINATOR®**  
By Ranew's Outdoor Equipment®

The **Firminator** is a three in one land management tool designed with hunters, land managers, and landscapers in mind. The Firminator combines a heavy framed disc harrow, a precision seeder and a robust, cast-iron, agricultural-grade cultipacker to form a food plot implement like no other.

The frame of the Firminator is fabricated from 3" square tubing and laser cut steel parts by certified welders in a quality controlled manufacturing facility. Attached to this tough frame are heavy 18" discs that will break even the toughest of soils. Since most food plotters plant when the time is available, not when the conditions are perfect, we have placed mud scrapers between our discs in case it is a little too wet. You can also adjust the disking angle from zero to twenty degrees to break even hard dry ground.

The precision seeding system is known as the Accu-Seed system, and will deliver a huge variety of seeds from clover, brassicas, wheat, oats, corn, soybeans, and even chufa accurately and efficiently. The seed system is very accurate, and time proven, as it is the same seed system used by many farmers to plant wheat and other cash crops in the Midwest for over forty years!

Behind the Accu-Seed system is a heavy, cast iron cultipacker. Many planters use a drag, steel roller, or even plastic wheels to firm the seed bed, but the Firminator uses the same tool that farmers use: a cast iron cultipacker. The heavy cast-iron cultipacker smooths and firms the seed bed for maximum soil to seed contact which greatly increases germination rates. The cultipacker is especially important for the small seeds like clover, brassicas and chicory. These small (and usually expensive) seeds will not survive if they are planted too deeply. The key to these plantings is to have a firm, level cultipacked seed bed before you drop the seed, and then cultipack it again. The Firminator makes this process as easy as possible, as you are using one implement to do three planting tasks! The Firminator can even be used to plant native warm-season grasses for CRP programs.

The Firminator comes in 3, 4, 5, 6 and 8 foot widths to fit any size food plot or ATV/tractor. It is proudly manufactured in Milner, Georgia by Ranew's Outdoor Equipment. If you are ready to plant the best food plots possible, please contact Ranew's Outdoor Equipment at 678-544-4400 or [www.thefirminator.com](http://www.thefirminator.com).

## ELEGANT ONE-OF-A-KIND CAPRIVI RIFLE IN THE ICONIC .375 H&H MAGNUM

Kimber is proud to offer this stunningly elegant one-of-a-kind Caprivi Rifle in the iconic .375 H&H Magnum cartridge. The receiver has been delicately engraved with a scrolled leaf pattern and stippled accents. Turnbull Restorations then meticulously color case hardened the action and rust blued the barrel. Charcoal blued small parts and AA-Grade French walnut with genuine ebony tip round out this stunning piece. The rifle is further enhanced by wearing the latest Schmitt and Bender, 1-8x24 EXOS scope with flashdot illumination reticle, which is then firmly secured by Badger Ordnance rings. Both featured items were graciously donated for this rifle.

### Specifications

**Model:** Kimber Caprivi Dangerous game rifle  
**Caliber:** .375 H&H Magnum  
**Stock:** AA-Grade French Walnut with ebony tip and twin cross bolts, 24 lpi full wrap hand checkering.

# FREEDOM'S STEEL™ VII - DEFENDER'S EDGE™ BIG BEAR SUB-HILT FIGHTER

Mitchell D Cohen - Prairie Digital Photo

Dietmar Kressler of Germany is internationally acclaimed for his extraordinary integral knives. Integral means that they are created from a solid billet of steel by carefully removing steel until all that is left is a blade, guard (hilt and sub-hilt in this knife), tang and butt cap, all one solid piece. Kessler sets himself apart from many integral knife makers in that he uses no computer controlled (CNC) machinery to remove all that metal; it is all done painstakingly using conventional tooling. Kessler's Big Bear Sub-Hilt Fighter is the pinnacle of his integral knives, his most difficult and desirable creation.

Kressler spent time in America as a young man and was a member of NRA. It was early in his knifemaking career and he says he often thought he should donate one of his knives to NRA to support the cause of freedom. Many years later when the opportunity offered itself, he jumped at the chance. Living in Germany, he notes, "you really appreciate the freedom and safety American's enjoy because of the NRA."

This extraordinary Freedom's Steel™ VII - Defender's Edge™ Big Bear Sub-Hilt Fighter has a 7-inch double hollow ground mirror polished blade of high-tech RWL-34 powder metallurgy high carbon stainless steel. It features a tapered tang for improved balance and is 12.875 inches long overall.

Defender's Edge™ crossed the Atlantic three times during its creation. After Kressler finished it to final

shape, it was shipped to Montana for engraving by internationally celebrated knifemaker and FEGA Master Engraver Rick Eaton.

Eaton's engraving features a sophisticated and intertwined design with deeply sculpted and French gray primary leaves from which originate both bright finished stainless leaves and 24k Gold stems and fine shaded 24k Gold leaves. The background features Eaton's trademark fine matte finish which provides excellent contrast to the sculpted leaves for an eye-popping result.

The knife was shipped back across the Atlantic where Kessler heat treated the knife and carefully fitted the highly-figured 10,000-year-old Mammoth Ivory handle scales. Finished to his signature mirror polished finish, it was shipped back across the Atlantic to Eaton for final installation of the 24K Gold inlay and inking. Freedom's Steel™ VII - Defender's Edge™ Big Bear Sub-Hilt Fighter was finally complete and ready to be part of some lucky person's collection.

# "LET SLEEPING LEOPARDS LIE" (LEOPARD ASLEEP ON A LOG AFTER EATING) 36" X 48"; 2015; ORIGIN AFRICA- ACRYLIC ON BOARD

Vickie McMillan-Hayes, is a lifetime member of the NRA and has donated paintings for the ILA Dinner and Auction and NRA-WLF. She is known for her breathtaking wildlife and nature paintings that advance global conservation causes. Her 36" x 48" painting called "Let Sleeping Leopards Lie" is a depiction of a satisfied leopard enjoying a leisure afternoon after a full meal. The leopard is known as one of the "Big Five", coined by big-game hunters and is one of the most difficult animals in Africa to hunt.

Vickie McMillan, a native Texan and resident of The Woodlands, masterfully creates breathtaking wildlife, landscape and nature paintings that advance global conservation causes, envisions and executes large

public installations, and conducts art-based global outreach initiatives that equip, encourage, and motivate disadvantaged, disabled, and impoverished people. Her large public installations include public buildings, hospitals, schools, correctional facilities and other government organizations. McMillan's award-winning paintings have been exhibited in both Art Museums and fine art galleries throughout the country and abroad. Her paintings are included in museum collections, corporate and private collections and have been published in well-known magazines, articles and reviews both locally and internationally.

## FN M249S AND M249 PARA, CHAMBERED IN 5.56X45MM NATO

The FN M249S<sup>®</sup>, a semi-automatic version of the M249 SAW light machine gun, was originally developed by FN Herstal as the FN MINIMI<sup>®</sup> and adopted by the U.S. military in 1988. The rifle features the signature 18.5-inch PN cold hammer-forged, chrome-lined barrel and operates from a closed-bolt position. Chambered in 5.56x45mm NATO, the rifle will accept both magazine and linked ammunition belt and offers a 4.0-6.5 pound trigger pull out of the box.

Also, own the newest addition to the Military Collector Series- the FN M249S<sup>®</sup> PARA, a semiauto version of the currently contracted FN<sup>®</sup> M249 PARA. The PARA was designed for airborne, armored infantry and close

quarters combat (CQC) operations with a shorter barrel and collapsible buttstock. It retains all of the features of the FN<sup>®</sup> M249 SAW and can be field-converted back to the standard model configuration in just 30 seconds.

**DONATED BY: FN**

## TWO BLACK RAIN ORDNANCE, INC. RIFLES, ONE CHAMBERED IN .223 AND ONE IN .308.

Black Rain Ordnance, Inc. is a Neosho, MO. based, precision firearms manufacturer, specializing in tactical style rifles and silencers. From inception the company has strived to manufacture only the best made-in-the-U.S.A. products that money can buy. All products carrying the B.R.O. Bio-Hazard logo are made in America by American workers.

They are dressed with Magpul furniture, UBR stocks, MIAD grips, and PMAGS. We coated these rifles with a custom Cerakote to give them a unique and one of a kind look. These rifles are not production models that Black Rain Ordnance, Inc. catalogs, these are one off rifles.

**DONATED BY: BLACK RAIN**

Black Rain Ordnance, Inc. is extremely proud to donate to this year's NRA-ILA auction a matching pair set of rifles. Two Black Rain Ordnance, Inc. rifles, one chambered in .223 and one in .308. These rifles feature our billet aluminum receivers, charging handle, and tactical latch, our free float monolithic modular hand guard, stainless steel barrels, adjustable gas blocks, competition compensators, 3.5 lb. drop in trigger groups, nickel boron coated bolt and carrier groups, and single point slings.

# VERY FINE PRESENTATION QUALITY SILVER FITTED GILT FINISHED AMERICAN STAFF & FIELD STYLE SWORD

Offered here is a very fine presentation quality American sword. The overall length of the sword is 38 inches, and the curved double fuller blade measures 32 inches. The general layout of the sword follows the popular Civil War era "Staff & Field" officer's pattern, though with a much higher degree of fit, finish and embellishment. The blade lacks a maker's marking, and the spine is etched "IRON PROOF," a marking often seen on Solingen blades produced on order for American jewelers and silversmiths. Without a doubt the sword showcases the work of a period master craftsman. Both sides of the blade have a 3-1/4 inch panel of etched and gold washed scrollwork above the ricasso and a 7-1/2 inch panel of American martial and patriotic themes positioned further up. The guard and pommel are cast and sculpted brass with a gilt finish. The hilt is adorn with a "screaming eagle" quillion, double sided oak leaf and acorn motifs between the guard branches, a raised American eagle motif on the back of the pommel, and a 5/8 inch long faceted orange stone surrounded by 16 smaller round cut purple stones on the pommel cap. The grip is cast silver and features triple strand brass wire wrap. The scabbard is nickel finished overall with gold washed brass fittings, which are decorated with repeating scroll and patriotic

motifs. The tip is adorned with a raised and sculpted American sergeant in Civil War dress standing with a fixed bayonet before two flags joined by a laurel wreath, the middle suspension band is engraved "US" on the back and shows a raised array of arms on the front, and the upper band has a pair of blank inscription panels and a raised American Eagle design, along with a set of thick twisted wire rings. The blank inscription panels leave admirers to speculate the intended recipient.

Very fine. The blade is bright overall, with some spotting, gray patina and mild pitting concentrated at the upper third of the blade, with solid decoration and etching. The hilt is very good, with well-aged antique brass visible along the edges, a few dark spots and mild handling marks. A small casting void is present in the beak of the eagle, and the decorative stones are all solid. The scabbard is very good, with a few dents and handling marks. This handsome presentation quality sword makes for a welcomed addition to any American martial edged weapons collection.

**DONATED BY: ROCK ISLAND AUCTION**

# GUNWERKS CUSTOM 7MM REMINGTON MAGNUM LONG RANGE RIFLE TOPPED WITH 5.5-22X NIGHTFORCE SCOPE

Gunwerks is pleased to donate a 2018 Magnus rifle system complete with ballistically calibrated scope chambered in 7mm Remington Magnum. This shooting system comes equipped with a carbon fiber wrapped barrel, stainless steel GLR action, and newly designed carbon fiber stock with a fully adjustable recoil pad system and custom paint. The optic features a magnification range of 5.5-22X complete with ballistically calibrated custom turret. The new Magnus is the result of ten years of building long range shooting systems, it is the most impressive shooting experience you will have in the field. The secret of this shooting system is found in the design. When we sketched out the concept of the Magnus, we wanted to build the perfect rifle for long range shooting. Specifically, we wanted a stock design that fit the ergonomics of prone and bench shooting. The grip is vertical, the fore-end wide and stable with a radically flat toe line, and an adjustable recoil system designed to be fully customizable to the shooter. It retains the signature Gunwerks negative comb.

The result is straight tracking, low muzzle lift, and fast target re-engagement. It's so different, it's startling! The new Magnus rifle comes in a custom SKB case making it easy to transport and store.

**For more information, contact: Garrett Wall  
307-296-7280 or [garrett@gunwerks.com](mailto:garrett@gunwerks.com)**

**DONATED BY: GUNWERKS AND NIGHTFORCE**

# JERRY FISK/JESSE JAMES CUSTOM MADE BOWIE & STAINLESS STEEL ENGRAVED MI911 HANDGUN

This Bowie knife design is taken from the pages of American history, historically carried by men willing to face what was before them. Those thoughts were in the air as the billet of steel was folded and forge welded by Jerry Fisk and historical materials were added into the steel itself. The STAR pattern, "Saving the American Rights" was forged into the blade, including steels from the USS Cole and tram rails from the bombing of Pearl Harbor. The handle is hand crafted from stainless steel and represents another symbolic meaning to our 2nd Amendment fight. Stainless steel has a great resistance to corrosion – just as the NRA is resistant to corrosion of our rights.

The pistol is a stainless Steel full relief engraved JJFU "Pee Wee" carry size 1911 in 45acp.

Handmade by Jerry Fisk, Master smith and a designated National Living Treasure.

Ian Morrison has been performing the fine art of Hand Engraving since 1997 where he began working under Master Hand Engraver, Scott Pilkington. Although he specializes in engraving custom firearms and knives, Ian has also engraved a variety of heirloom items from pewter baby cups to sterling and gold jewelry pieces. Combining his passion for the outdoors with his natural creative ability, each piece that Ian engraves is a unique and artfully carved one of a kind collectible.

# A SET OF TWO 10MM 1911 POWERHOUSES WITH CONSECUTIVE SERIAL NUMBERS

**Les Baer 1911 Premier IIc 6" 10mm HUNTER**  
 More hunters than ever are responding to the challenge of stalking big game using only a handgun. But, for many, the experience could be even more satisfying if they were able to go afield equipped with a familiar feeling 1911, built for match grade accuracy and superior reliability, while being specially chambered in a powerful, high velocity caliber with plenty of knockdown power. Les Baer Custom's 10mm HUNTER model of the world famous Premier IIc has been designed and built specifically as a precision hunting arm and is a perfect choice for wild boar and most deer size game. While custom built from the ground-up and fully equipped for eye-popping accuracy and user friendly performance in the field or at the range, it is chambered for the hard hitting 10mm cartridge to ensure optimum accuracy and impact and it's equipped with an extra-long 6" barrel. Guaranteed to shoot 3" groups at 50 yards.

**Les Baer 1911 Premier IIc 5" 10mm**  
 When we introduced our new 10mm "Hunter" in 2017, many of our hunting friends were ecstatic to have a true custom 1911 available in a powerful caliber for use in the field. As we know, 10mm is a dynamo of a caliber for boar and other deer sized game. And since our "Hunter" was based on our world famous Premier IIc, which has set the standard for precision built, reliable, amazingly accurate 1911s, it has been a big hit. Then, several of our customers asked: "Hey, how about a high performance, 10mm 1911 that's maybe a little shorter than the 6" model? That would be a great choice for closer quarters hunting and also for carry or even duty use. Kind of a multi-tasker." And that's how the 1911 Premier IIc 5" 10mm was born. Standard 1911 size with big power and super performance. Like the 6" model, the new 5" is custom built from the ground-up and is fully equipped for unerring accuracy, superior handling characteristics, and dependability. And the 10mm cartridge is probably one of the hardest hitting and most reliable cartridges you'll find for semi-autos. Guaranteed to shoot 3" groups at 50 yards.

## EVERYONE LOVES GOLD AND GUNS - YOU CAN HAVE BOTH

24k Gold Plated Century AK47 with Wooden Display Case  
 C39v2 Rifle and fitted Pelican Case

Included in one of the safes are twelve one ounce 2018 \$50 Gold American Eagles, modeled after the \$20 Saint-Gaudens Double Eagle. Among the many patriotic, symbolic designs represented is Lady Liberty on the obverse, seen with a torch in her right hand and an olive branch in her left as she strides before the United States Capitol Building, while a gleaming sunrise radiates behind her. The reverse of the 1 oz. Gold American Eagle portrays a family of eagles in a timeless design by noted American artist and Beaumont, Texas native, Miley Tucker-Frost. Also included will be a \$5 Gold American Eagle with Miley's autograph.

SAKO 85 PRESTIGE IN .375 H&H WITH STEINER

GS3 2-10X42 SCOPE

**Sako 85 Prestige Rifle**  
Sako is proud to present the Prestige line of rifles. Built for the serious hunter by craftsmen with a pedigree in building the best. Accurate. Reliable. Beautiful. The Sako 85 Prestige - with flair and detail like no other.

**Rifle Package Includes:**  
**Steiner GS3 2-10x42 Scope**  
To complement this inspiring rifle, we have included a Steiner GS3 2-10x42 scope. The new Steiner GS3 “game sensing” scope utilizes exclusive CAT (color adjusted transmission) lens coatings to amplify contrast in the peak human vision sensitivity range. The optimized contrast effectively separates game from leafy or shadow-dappled backgrounds, exposing your target to a clean, accurate shot.

**Accessory Items:**  
Beretta Terrain line of accessories is as beautiful as it is practical. Sturdy canvas construction with leather details.

Beretta Terrain Rifle Sling  
Beretta Terrain Long Gun Case  
Beretta Terrain Cartridge Bag

**The Altitude™ pattern** is ultimately designed for alpine

(above tree-line) environments where conditions are extreme, changing quickly and often. The fabrics chosen for this collection are produced by European industry leader, schoeller® Textile AG. Extensively used in the mountaineering community, SVchoeller® is known for their innovative, technical fabrics produced with the highest quality and for extreme performance. The NEW Altitude™ series by Kryptek® is designed using the best trim, components, and technology available, keeping you safe and comfortable through our planet’s harshest environments. What makes the Altitude™ series truly unique is the “Wet-print” technology used in the collection. Printed in Germany, this technique is the same method used on U.S. military and tactical gear. Combine this with our highly technical fabrics and components and the Altitude™ line becomes the first of its kind in the hunting market.

DONATED BY: KRYPTEK AND ROCKY MOUNTAIN PRECISION RIFLES

# 7 DAY HUNT (6 FULL DAYS IN THE FIELD) FOR ONE REINDEER HUNT ON UMNAK ISLAND

The terrain is generally rolling hills which are fairly easy to traverse, however there are some deep ravines and areas near the mountain where walking is a bit more difficult. Each day you will go out into the field via ATV and glass for animals and once a trophy reindeer is located you will make the final stalk on foot.

**Travel:** Once you book your trip with us, we will give you all the details regarding flights and travel. Hunters will arrive in Anchorage via commercial flights and then fly out to the islands on a private charter that we organize. It is highly recommended that you purchase travel insurance for both the hunting trip and the flights. We have a relationship in place with an insurance agent who has put together a travel insurance policy specifically tailored for this trip – we will get you the information to purchase this policy once you book a trip with us.

Mother Nature reigns supreme in this part of the world – you must be prepared to deal with delays and changing plans depending on the weather. Days lost to inclement weather are not refunded, nor can the hunting trip be extended – this must be clearly understood before booking. Clients must be willing to accept that they could not only lose hunting days going into camp, but also lose days coming home from camp due to Mother Nature (i.e. don't plan any important meetings at work on the week you are supposed to go home!).

**Guns and Ammunition:** Rifles chambered in .270 Winchester or larger using premium bullets are recommended.

**Dates:** 7 day hunt (6 full days in the field)

**Getting your Trophy Home:** Hunters will bring their frozen capes and antlers back to Anchorage with them at the conclusion of their hunt on the private charter. A representative from Knights Taxidermy will meet you when you arrive in Anchorage and take the capes and antlers for final taxidermy at their location or expediting to another taxidermist based on the hunter's wishes. All costs for final fleshing, salting, skull boiling, expediting and/or taxidermy are the responsibility of the hunter and will be billed to clients by Knights.

**Included:** All lodging, food and beverages while hunting (there is no alcohol in camp, hunters must bring their own if desired), professional hunting guides, and field preparation of animals.

**Not included:** Flights into Anchorage, any overnight hotels required coming or going to camp (minimum one night in Anchorage or Dutch Harbor and possibly others if stranded due to weather), licenses, tips, trophy shipment or taxidermy. Flight from Anchorage to island must be arranged through Aleutian Adventures.

**TO BOOK A HUNT OR MORE INFORMATION:**

# PATRIOT 20 MM RIFLE AND SUPER SEVEN BY BIG SHOT RANCH

The Patriot 20mm rifle is the largest and most powerful American made anti-material rifle that an American citizen can own. The Patriot 20mm shoots the 20mm Vulcan canon round which is the same round that the F16 and F18 Airforce fighter jets use. The 20mm Vulcan canon round is more than three times more powerful than the .50 BMG cartridge and is effective to almost 3 miles. The rifle is approximately 8' long with the suppressor and weighs about 130 lbs. The Patriot 20mm rifle was designed for one special class of people, all American Patriots.

**FEATURES:**

- 3 mile effective range
- 3 times more powerful than .50 BMG
- 8' long and weighs 130 lbs.
- Same round as F-16 and F18 fighter jets
- Fluted, hand lapped match barrel
- Convertible to 20/50 round

This package also includes a "Super Seven" shooting experience at Big Shot Ranch. Big Shot Ranch offers the ultimate unique firearms experiences on its 67-acre property just outside of Salt Lake City, Utah. The "Super Seven" lineup includes the Barrett M82A1 .50 cal. sniper rifle, the M2H2 "Ma Deuce" belt-fed .50 cal., the M240B belt-fed .308, the M249 SAW belt-fed .556, M240B belt-fed .308, the Glock 18 full auto pistol, the 20mm Vulcan Canon sniper rifle, and belt-fed .308 "50 rounds per second" Minigun belt-fed .308. Afterward, you will enjoy a first class New York steak dinner with all of the trimmings. The 2,800 sq. ft. clubhouse, includes sofas, classroom seating, a board room, billiards, a fully equipped kitchen, a 2,000 sq. ft. deck and, of course, the armory.

**DONATED BY: BIG SHOT RANCH**

BARRETT ARMS 3 RIFLE PACKAGE

REC7 DI, .224 Valkyrie
After years of raising the bar on long-range shooting with our .50 caliber rifle systems, Barrett has created our next generation carbine: REC7 DI. In an effort to continue this innovation, our Advanced Research Group (ARG) partnered with Federal Ammunition to develop the .224 Valkyrie REC7 DI as a concept rifle for SHOT Show 2018.

This special Long Range makeup of the REC7 DI features a heavy profile stainless steel barrel with Barrett muzzle brake, a SSA trigger and a Magpul PRSIII Stock.

Fieldcraft, .224 Valkyrie
We couldn't find the perfect hunting rifle, so we built one. Barrett Fieldcraft, awarded Guns & Ammo Magazine's 2017 Rifle of the Year, is the perfect combination of ultra-lightweight design and heavy-duty performance.

This one of a kind Fieldcraft isn't commercially available yet and includes a custom color textured finish on the hand-laid carbon fiber stock; a matte black, fully-bedded

barreled action; and custom engravings featuring our ARG mark and the Valkyrie logo.
Model 98B, .338 Lapua Magnum
The Model 98B rifle was developed to be a completely unique, purpose-built platform for precise long-range shooting. Its straight-line design, running from the muzzle to the shooter's shoulder, tames recoil and allows for faster, more accurate follow-up shots.
This .338 Lapua Magnum Lightweight model is the perfect addition to your collection.
